Main Office: 6 Technology Dr, Ste 100
East Setauket, NY 11733

Orthopedic Associates of Long Island proudly recognizes **National Brain Day!** As a leading orthopedic practice, we understand the critical importance of brain health and its impact on overall well-being. Our specialized services cater to **concussions** and include **ImPACT testing**, ensuring accurate diagnosis and tailored treatment plans. At OALI, we work closely with local schools, emphasizing the significance of brain safety in sports and education. Additionally, our **ThinkSmart program** provides comprehensive concussion management, offering innovative strategies for optimal recovery and long-term brain health.

With our team of experienced orthopedic and sports medicine specialists and state-of-the-art facilities, **we are committed to providing the highest quality care for our patients' brain health.** On this special day, we raise awareness about the intricate connection between orthopedics, sports medicine, and brain wellness, promoting a healthy and active lifestyle for all. Contact us today to learn more!

Service Highlight

Recognizing the signs and symptoms of a concussion is crucial for prompt diagnosis and treatment. Common indicators can include **headaches, dizziness, confusion, memory problems, sensitivity to light or noise, nausea, and changes in mood or sleep patterns.** If you have experienced a head injury or suspect you may have a concussion, it is essential to seek medical attention promptly.

At OALI, we understand the serious impact concussions can have on one's health and well-being, and our team of experienced concussion specialists is here to help. Our skilled physicians utilize advanced diagnostic tools, such as **ImPACT testing**, to assess cognitive function and identify the severity of a concussion. ImPACT testing is a widely recognized tool that helps evaluate memory, reaction time, and processing speed, enabling our specialists to develop individualized treatment plans.

Additionally, we are proud to partner with St. Charles Hospital on the **ThinkSmart program**, a comprehensive concussion management program. ThinkSmart combines evidence-based practices, cutting-edge technology, and a team of experts to guide patients through every step of their recovery. Our program includes rehabilitation services, cognitive therapy, and psychological support to address the physical, cognitive, and emotional aspects of concussion recovery.

At OALI, your health and recovery are our top priorities. If you suspect a concussion or require specialized concussion management, don't hesitate to reach out to our dedicated team of experts. We are here to support you on your journey to optimal brain health and overall wellness!

Meet Our Doctors

Danielle N. DeGiorgio, DO

Non-Operative Orthopedics And Sports Medicine Specializing In Regenerative Medicine, Physical Medicine & Rehabilitation, And Concussion Management

Dr. Danielle N. DeGiorgio is OALI's Director of Regenerative Medicine and is an Assistant Clinical Professor with the Department of Physical Medicine and Rehabilitation at the Stony Brook University School of Medicine. She is dual-board certified in Physical Medicine & Rehabilitation and Sports Medicine.

Mark J. Harary, MD

Non-Surgical Orthopedics And Sports Medicine
Regenerative Medicine Specialist

Dr. Mark J Harary specializes in the non-operative treatment of musculoskeletal problems in both pediatric and adult patients. He has a special interest in treating osteoarthritis, fractures, acute injuries, and concussions.

Dr. Harary is a concussion specialist with St. Charles Hospital's ThinkSMART!™ Concussion Management Program and serves as the team physician for the Commack High School and Miller Place High School football teams.

Hayley Rintel Queller, MD

Non-Operative Sports Medicine – Adult & Pediatric,
Specializing In Sports Medicine & Concussion Management

Dr. Hayler Rintel Queller specializes in the non-operative management of orthopedic issues of all ages. She has a keen interest in injury prevention and rehabilitation from non-operative conditions. She also has a particular interest in fracture care and concussion management.

Dr. Queller serves as the **Medical Co-Director of St. Charles Hospital's ThinkSMART!™ Concussion Management Program** and helps ensure the most up-to-date management of concussions in more than 42 school districts in Suffolk County.

New Office Location!

Later this summer, OALI will open a new suite in the ***Catholic Health Ambulatory & Urgent Care Center*** at Centereach. OALI will join several urgent, primary, and specialty care providers, as well as imaging services, a retail pharmacy, and an endoscopy suite. The new facility is located at **2112 Middle Country Road in Centereach**. For more information, email **info@oali.com**.

How Did We Do?

We strive to offer the best care to each and every patient. Our success depends on the quality of patient care, and the only way to be sure of this is to hear from **YOU**, our patient.

"Professional and knowledgeable.
Clean and well run facility."
